**DETAILED ACTION**

**Priority**

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

**Election/Restrictions**

2. Applicant's election without traverse of claims 6-9 in the reply filed on 09/19/2006 is acknowledged.

**EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 1-5, 10-19 have been cancelled for they are restricted without traverse.

**Reasons for Allowance**

4. Claims 6-9 are allowed.

The following is an examiner's statement of reasons for allowance:

- With regard to independent claim, as the closest reference of record, Mackawa et al (US 6,935,014) discloses a method of fabricating a magnetic head including a single pole type head which includes a main pole 3 (Fig. 9, column 7, lines 42-46) and a return pole 10, the method including the steps of: forming a magnetic layer 3 (Fig. 3; column 6, line 11) which is processed to be the main pole; forming a first magnetic metal layer 5 (Fig. 3; column 6, line 20) and a non-magnetic insulator

Art Unit: 2627

layer 8 (Column 6, lines 42-44) in order on the magnetic layer; forming a first mask of a resist layer 9 (Column 6, line 39) on the non-magnetic insulator layer; shaping the non-magnetic insulator layer by reactive ion etching (Column 7, line 8-14), using the first mask, thus forming a second mask 10 (Figs 5-8); and shaping the magnetic layer into a designed shape of the main pole (Fig. 9), using the second mask; **but fails to show** that the metal layer 5 is a non-magnetic metal layer.

- Applicant asserts that this invention is a method to fabricate a magnetic head comprising a single pole type head suitable for narrow tracks, while preventing corrosion of the magnetic layer (Specification, p. 4).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record in PTO-892 Form and not relied upon is considered pertinent to applicant's disclosure.
